

Air cargo security vital to safeguard assets

Costly transportation, land acquisition hurdles are key challenges in warehousing sector, says Sandeep Chaudh, Founder & CEO, Warehouse. To address these, development of MHLPIs is crucial. Simplifying land acquisition procedures, involving seamless coordination between governments, can expedite infra development, he adds.

Rishi Arora Delhi

How do you see the future of warehousing and logistics sector in the near future?

Our vision is to contribute to the growth of the warehousing industry by expanding our presence. Currently, the logistics sector in India is growing at a rate of 10 to 12 per cent, which is much higher than the average of 6 to 8 per cent. We are looking at the future of the warehousing sector in India, which is growing at a rate of 10 to 12 per cent. We are looking at the future of the warehousing sector in India, which is growing at a rate of 10 to 12 per cent.

Will large investment in infrastructure help in the growth of MHLPIs? How much emphasis is put on improving multimodal connectivity?

Infrastructure such as NIP, PMGSY, and others in India are growing at a rate of 10 to 12 per cent. We are looking at the future of the warehousing sector in India, which is growing at a rate of 10 to 12 per cent.

Initiatives such as National Logistics Policy, PMGSY, and Make in India are pivotal in fostering development and streamlining growth in the sector

Infrastructure such as NIP, PMGSY, and others in India are growing at a rate of 10 to 12 per cent. We are looking at the future of the warehousing sector in India, which is growing at a rate of 10 to 12 per cent.

How vital is cargo security in the sector? What kind of initiatives have been taken?

Cargo security is paramount in safeguarding assets and maintaining operational integrity. Our approach involves multi-layered security measures, including advanced surveillance, access control, and robust physical security measures.

Cargo theft accounts for 2 to 4% of overall losses in the industry, so it is important to implement security measures

State and central governments, along with industry associations, are actively engaged in implementing security measures. This includes the establishment of a National Logistics Policy, which aims to streamline the logistics sector and improve security.

What are the challenges in the warehousing sector?

Several challenges are present in the warehousing sector, including land acquisition, infrastructure development, and regulatory hurdles. These challenges can significantly impact the growth and efficiency of the sector.

What is crucial to your mind to succeed in the coming years?

Investment in infrastructure, particularly in the warehousing sector, is crucial for success in the coming years. This includes the development of modern warehousing facilities, which can improve efficiency and reduce costs.

How important is collaboration in today's times to boost growth?

Collaboration is indispensable for boosting growth in today's competitive market. By working together, stakeholders can leverage their strengths and overcome common challenges, leading to faster growth and innovation.

Share your upcoming projects and growth strategies?

We are focused on developing a robust network of warehouses across India, with a particular emphasis on the eastern and southern regions. Our goal is to provide high-quality warehousing solutions that meet the needs of our clients and drive sustainable growth.
